HIP	85	90	95	100	105	110	115	120	125	130	135

### MEN'S

- Collar**  
Measure the collar/neck size around the base of the neck. Leave about a finger-width gap for comfort.
- Chest**  
Measure around the biggest part of your chest, running the tape under the arms and across the shoulderblades.
- Waist**  
Measure around the waist, wrapping the tape around the position where your trousers are usually worn. Leave about a finger-width gap to allow for comfort.
- Inside Leg**  
Measure the inside of the leg from the crotch to the hem of your pants. Alternatively, lay a pair of your trousers on a table top and measure the same way.

### LADIES

- Bust**  
Measure around the chest, running the tape under the arms, around the fullest part of the bust and across the shoulderblades.
- Natural Waist**  
Measure around the central part of the torso where the natural waistline sits (find the natural crease by bending to one side).
- Low Waist**  
The low waistline sits approx 2 inches below your natural waistline. Run tape around this area to measure.
- Hip**  
Measure around the fullest part of the top of the hips, keeping your feet together.
